Please remember to send in your stories!

Today some of the Swiss adventurers hiked up to Doldenhorn hut which sits at 1915m above sea level. This hike was 11.5 km and had an incline of 835 meters. Once at the top they had bread, cheese and cold meats whilst taking in the beautiful views around them.

15 of the Swiss Adventures today took the bus up to the next village along from Kandersteg called Selden. From here the group took a hike along Gastern valley where they stopped to view the Kandersteg's snow-capped peaks, then enjoyed a hike along the Kander back down towards base camp via some key landmarks along the way.

Some of the Adventures spent a full day in Adelboden Adventure Park where participants explored a network of high rope routes, suspended tunnels then finally having a decent on a zip wire. They did all of this whilst taking in the breath taking views of Swiss Alps.

13 of our adventurers took to the rocks learning how to climb. First, The baby "pop rock" before trying the slippery and smooth "Indie" rock before putting it to the test on "hard" rock. For many it was their first time climbing and for the experienced climbers they took it upon themselves to push their limits.
